EDUCATION

Computers, Information And Management Technology Tanta
2021-2024

SOFT SKILLS

Communication | Teamwork | Flexibility | Fast Learning | Responsibility

PROJECTS

- **“Portfolio”** It is an introduction to me and the services that I can provide. It contains a business gallery and a way to contact me. It also contains skills, education, and links to access LinkedIn and GitHub.
Demo link : <https://ahmedkamel812.github.io/myPortfile/>
- **“E-commerce”** Developed a comprehensive e-commerce project that includes user authentication, a Wishlist feature, a shopping cart, and multiple payment options, including cash and online payments.
Demo link : <https://ahmedkamel812.github.io/e-commerce/>
- **“Movies”** It is a movie site simulated by EgyBest that displays movies in a group of sections, including action, comedy, and others. When you click on the movie poster, it displays some of the movie’s features and a watch button, and also displays the movie’s implementation team.
Demo link: <https://ahmedkamel812.github.io/movies/>
- **“Website For Company”** A simulated website for companies that provide services, including free and non-free. It is a responsive website on all screens and has many usable capabilities.
Demo link : https://ahmedkamel812.github.io/website_for_your_business/
- **“To Do List”** It is a site that resembles a task site. This site is distinguished by the fact that it includes several characteristics, including that it has night lighting, and recording notes is divided into several sections according to the date of their occurrence, to I have not done it yet, I am doing it, and I have done it. Also, note recording is divided into health, education, and others for what is available in the display method. Horizontal display and vertical display
